

Project Description «Innovation Investment Plans»

The business was co-financed by the European Union and National Resources within the framework of the Action of the “Central Macedonia” Program of the National Strategic Reference Framework for Regional Development 2021-2027, “Investment Projects for Innovation”. The operation aims to design and develop a series of new “Clean Label” products and to optimize existing products without preservatives, with natural antioxidants, natural dyes and natural starches. The project budget amounts to 305.000,00€ and the Public Expenditure to 179.735,00€.
